...

age-appropriate programs for children during the workshop times – only in German language:

For children (3 to 6 years): **forest educational childcare**, a well protected frame with freedom of movement in the shady pine forest

For children (primary school age up to 13 years): permanent **children groups**, guided group dynamics and exciting natural experience-, movement- and creative-offers

For young people (14 to 17 years): the **Youth Camp**

For parents with children under 3 years, we offer a meeting space for about two hours in the morning, which is designed from parents from Sieben Linden. This is a way to get to know some aspects of Sieben Linden very personally together with the little ones and to get to know the other families. A workshop participation in the morning with children under 3 years is usually not possible.

One day you will support hands-on the summer-camp kitchen.

... and the second half of the day? German is the main language in the camp, but we will do our best to integrate english speaking people.

We will co-create the afternoons and evenings together. Besides the planed events, new unexpected happenings will result out of our self-initiatives and our courage to improvisation: the daily sharing-circles for men, women and queers, choir, playful dancing and touching Biodanza-Vivencias. The "Liebesakademie" (love academy) from the German intentional community ZEGG will present their work around love and sensuality. When it gets dark, you may be tempted to chat at the campfire, sit underneath the stars or play on the open stage in the amphitheater. Than there will be the hilarious final celebration, where we can all participate. Show us your talents and ideas!

What is the Young People Circle (JuLe-Kreis)? This is the name of a group of young adults in the age of 18 to 25 years living in Sieben Linden, who will organize their own program open for all young adults attending the camp.
